HADDONFIELD PUBLIC SCHOOL DISTRICT PRESENTS

OUR SCHOOL DISTRICT HAS PARTNERED WITH STOPit TO EMPOWER AND PROTECT STUDENTS FROM HARASSMENT, INTIMIDATION, AND BULLYING

STOPit App empowers students to stand up against bullying

We are excited to inform you that our school has enrolled with STOPit! We are very excited to be rolling out this anonymous reporting software to you, your children, and our community. It is our hope that this tool will help rid us of HIB and significantly improve the climate in our schools and create safer, kinder school communities both online and off. STOPit does more than just help schools address incidents and mitigate risk. STOPit will help us go beyond reacting to bullying and inappropriate behavior and help us in deterring it. As young people continue to engage more with technology every day, we are taking a proactive step to empower our students to become Upstanders in our community through technology – in a way that they feel very comfortable. STOPit empowers students to stand up for themselves and others while giving our schools the insight we need to help keep students safe. We believe our adoption of STOPit is an important step in our continued efforts to provide a positive school climate and a safe learning environment for our students.

[STOPit](#) is the leading technology platform for schools that deters and controls harmful or inappropriate conduct. STOPit empowers students with an easy to use app to safely and anonymously report serious concerns and incidents to school officials – from cyberbullying to threats of violence or self-harm. With STOPit, students can submit anonymous reports containing text, photos, or video. Administrators are then able to manage incidents in a backend management system called DOCUMENTit. DOCUMENTit provides efficient and powerful investigative tools to our staff, including the ability to message with the reporter within the software, which will allow us to address issues instantly.

STOPit is completely anonymous. No student information is needed to use STOPit. No identifying information such as phone numbers are shared. The only way personally identifiable information will be accessible through STOPit is if a student voluntarily includes it within the content of a report or message. Both our school and STOPit are committed to protecting the privacy of student data. STOPit is a signatory to the [Student Privacy Pledge](#), spearheaded by the Future of Privacy Forum and the Software & Information Industry Association. You may review STOPit's [Privacy Policy](#) for details, including more information on how anonymous reporting works.

Our students will have access to the STOPit mobile app, which has two simple but powerful features. **Report** can be used by students to report incidents to school contacts anonymously. **Messenger** can be used to

engage in anonymous two-way communication with school contacts. Both Report and Messenger empower students to stand up for themselves and for one another. Students have the power to help put an end to harmful and inappropriate behavior they see in school and online through social media. They can use STOPit to reach out for help if they or a peer are facing a personal crisis or experiencing bullying, abuse, or are otherwise in need of assistance.

Our STOPit program is live. Here is the access code for your school:
