HSD Cases #141-143

The HSD Active COVID+ Dashboard was created as a reference tool to keep our school community informed about active COVID+ cases. A “live” link to this data is posted [here](#).

Dear Parents, Guardians, and Staff:

This letter is to inform you that three (3) individuals in the Haddonfield School District have tested positive for COVID-19. All contact tracing has been completed.

We continue to urge parents to keep their student home at the first signs of [COVID symptoms](#) and to please notify your school nurse as soon as you receive a COVID+ test. This helps the school district respond in the most efficient manner possible. Additionally, please note that the [HSD Active COVID+ Dashboard](#) is updated daily and available on the HSD website.

Please [click here for the most up-to-date version of HSD’s COVID-Related Decision Tree](#).

Here are all of the details that we are permitted to share:

Case 141: Haddon

- The individual is a juvenile female in Cohort B.
- The individual was symptomatic on Sunday, February 14, and tested and received results on Tuesday, February 16.

- According to guidelines, there is a “look back” period beginning two days before either the administration of a positive test if asymptomatic or two days before symptoms with a positive test. In this case, the “look back” is Friday, February 12.
- This individual was last in school on Friday, February 12.
- Based on currently available information, it is unlikely this individual contracted the virus in school.

Case 142: HMHS

- The individual is a female in her 10s in Cohort A.
- The individual was asymptomatic. She was tested on Friday, February 12, and received results on Monday, February 15.
- According to guidelines, there is a “look back” period beginning two days before either the administration of a positive test if asymptomatic or two days before symptoms with a positive test. In this case, the “look back” is Wednesday, February 10.
- This individual was last in school on Tuesday, February 9.
- Based on currently available information, it is unlikely that this individual contracted the virus in school.

Case 143: Haddon

- The individual is a juvenile female in Cohort A.
- The individual was symptomatic on Thursday, February 18, and tested and received results on Friday, February 19.
- According to guidelines, there is a “look back” period beginning two days before either the administration of a positive test if asymptomatic or two days before symptoms with a positive test. In this case, the “look back” is Tuesday, February 16.
- This individual was last in school on Tuesday, February 9.
- Based on currently available information, it is unlikely that this individual contracted the virus in school.

Please note that all COVID+ messages sent by the district are archived on our website at <https://haddonfieldschools.org/hsdhealthCOVID-messages/>.

Sincerely,

Charles Klaus
Superintendent of Schools
