

ACTION STEPS of the THREE LRSP (Long-Range Strategic Plan) COMMITTEES

Social-Emotional Goal

We will nurture self-awareness, social awareness, self-management, relationship skills, and responsible decision making to ensure the social and emotional well-being of our learners.

[Presentation on Action Steps posted September 2019](#)

Cultural Responsiveness Goal (formerly “Cultural Competence” in 2019)*

We will inspire learners to advance their understanding of our interconnectedness in order to engage meaningfully and respectfully with people of diverse identities, experiences, and points of view.

21st-Century Teaching and Learning Goal

We will empower learners to engage critically in a globally connected world through relevant content, innovative technology, flexible learning environments, and purposeful experiences

* During the summer of 2020, the committee, led by our (then) new Director of Special Education, Dr. Carmen Henderson, made two significant changes; the goal was renamed “Cultural **Responsiveness**,” and the language was expanded to say:

“We will adopt culturally responsive and sustaining practices throughout the district that are equitable and inclusive. We will inspire learners to advance their understanding of our interconnectedness in order to engage meaningfully and respectfully with people of diverse identities, experiences, and points of view.”
